CAREER OBJECTIVE

Final year Computer Science and Engineering student with a strong passion for software development, cybersecurity, and problem-solving. Eager to gain practical experience through an internship where I can learn from industry professionals and improve my technical skills. Interested in contributing to efficient, secure, and scalable software solutions while continuously growing as a developer. Motivated, adaptable, and always willing to explore new technologies and challenges.

EDUCATION

International University of Business Agriculture and Technology	Expected 2026
Bachelor of Computer Science and Engineering	CGPA: 3.16 / 4.00
Ullapara Science College	2020
Higher Secondary Certificate (HSC), Rajshahi Board	GPA: 5.00 / 5.00
Momena Ali Biggan School	2018
Secondary School Certificate (SSC), Rajshahi Board	GPA: 5.00 / 5.00

PUBLICATIONS

“A Hybrid Synthetic Oversampling and Federated Learning Framework for Class-Imbalanced Intrusion Detection in Heterogeneous Networks” 2026

IEEE International Conference

- Proposed a novel privacy-preserving intrusion detection framework addressing class-imbalance challenges using hybrid synthetic oversampling integrated with federated learning.
- Demonstrated improved detection performance across heterogeneous network environments.

SKILLS

Programming languages	Lan- C, C++, C#, JavaScript
Web Technologies	HTML, CSS, JavaScript, Tailwind CSS, Node.js, Express.js
Tools	Git, GitHub, Google Colab, Windows, Visual Studio Code, Fedora, Microsoft Office
Database	MySQL, MongoDB, Firebase
Concepts	Data Structures, Algorithms, Problem Solving, Federated Learning, Full-Stack Development

PROJECTS

Event Management System [Node.js, Express.js, MongoDB, HTML, JavaScript, Tailwind CSS] 2026

- Developed a full-stack event management system that enables users to browse events, book tickets, make payments, and complete event check-in through a secure and user-friendly platform.
- Implemented the backend using Node.js and Express.js with MongoDB for database management, while building a responsive frontend using HTML, JavaScript, and Tailwind CSS.

Personal Portfolio Website [HTML, CSS] 2026

- Developed a responsive personal portfolio website to showcase projects, research, and certifications.
- Implemented interactive features including dark/light mode, dynamic project sections, and contact form functionality, with a focus on clean UI and user experience.

Online Flight Booking Management System [HTML, CSS, PHP, MySQL] 2025

- Developed a web-based flight booking system where users can search flights, book tickets, and manage reservations through an interactive and user-friendly interface.
- Implemented features such as flight schedules, seat selection, booking confirmation, and real-time ticket availability for a smooth user experience.

- Blood Donation Management System [HTML, CSS, JavaScript, Firebase]**2025
- Designed and developed a web-based platform that allows users to register as blood donors, search available donors by blood group, and submit emergency blood requests efficiently.
 - Integrated Firebase for real-time database management and implemented an admin panel to monitor donor information, requests, and system activities.

- Web-Based Messaging System [HTML, CSS, MySQL]**2024
- Developed a web-based messaging platform that enables users to send and receive messages through an interactive user interface.
 - Implemented user authentication, chat management, and database integration using SQL for secure message storage and retrieval.

CERTIFICATIONS

- Driver’s Drowsiness Detector – IUBAT IGNITRON 25.12025
- Basics of Python – UniAthena (Cambridge International Qualifications, UK)2026
- Basics of Artificial Intelligence – UniAthena (Cambridge International Qualifications, UK)2026
- Basics of Data Science – UniAthena (Cambridge International Qualifications, UK)2026
- Certificate of Presentation – IEEE International Conference (Presented Research Paper)2026

EXPERIENCE

- Gained hands-on experience in front-end web development using HTML, CSS, and JavaScript through personal projects.
- Worked on developing responsive and user-friendly web applications, improving problem-solving, teamwork, and project management skills.
- Conducted training on basic computer and office applications.
- Assisted students with Microsoft Office and supported internet browsing.

EXTRACURRICULAR ACTIVITIES

- Attended tech seminars, workshops, and webinars.
- Worked on team-based academic projects.
- Active involvement in UI/UX or web design practice.

LANGUAGES

- Bangla – Native
- English – Fluent

INTERESTS

- Gaming, Drawing and Sketching, Traveling, Playing Sports.
